

# **FORUM ON INVESTMENT OPPORTUNITIES IN THE LDCs**

UN-OHRLLS

***Providing Solutions and Resources for  
Sustainable Development***

***26 May 2016 • Hotel Titanic Belek • Antalya, Turkey***

The United Nations Office of the High Representative for the Least Developed Countries, Landlocked Developing Countries and Small Island Developing States (UN-OHRLLS), the World Association of Investment Promotion Agencies (WAIPA) and the Government of Turkey are organizing a Forum to discuss investment promotion in the LDCs. FDI holds the potential to significantly help LDCs economies to diversify, reduce their dependence on commodities and promote manufacturing and services with higher local value-addition and a deeper integration in international value-chains. LDCs through their investment promotion agencies need to improve their capacity to market themselves by providing relevant, accurate and timely information to potential investors. The Forum will be held on the eve of the mid-term review of the Istanbul Programme of Action for LDCs where the potential of FDI for the sustainable development of LDCs will be further considered. Against this background, the Forum aims at furthering the discussion and adoption of best practices in investment promotion through interactions between business and government leaders as well as promotion professionals and multilateral agencies in order to enhance the capacity of LDCs to attract additional FDI, which can provide a crucial contribution to their sustainable development.
